8131095104968 2K REAR SPROCKET Z49
8131095105068 2K REAR SPROCKET Z50
8131095105168 2K REAR SPROCKET Z51
8131095105268 2K REAR SPROCKET Z52

If you're looking for the ultimate in quality and performance, this sprocket is the one for you!

- High-strength steel teeth, give long service life.
- Aluminium inner ring, to reduce unsprung weight.
- Joined together permanently with high-strength rivets
- At least three times longer service life than other aluminium rear sprockets
- 50% lighter than a conventional steel rear sprockets

Another benefit: more durable rear sprocket, helps increase the service life for the entire drivetrain.

2K sprockets are exclusively produced for Husqvarna Motorcycles by Supersprox. This product is protected under the following patents in Europe and USA. EU patent # EP1573234. US Patent # 7.481.729. Patent owner supersprox a.s.

ALUMINUM REAR SPROCKET

7771095105268 ALUMINUM REAR SPROCKET

The blue rear sprocket provides you with the following advantages:

- Made of high-strength 7075-T6 aluminum, the strongest aluminum in the world
- Originally developed for the aircraft industry and then adopted by the best rear sprocket manufacturers
- Cleaner, straighter and smoother chain travel, because it is ground precisely flat to 0.002 mm
- No vibration - therefore maximum efficiency of power transfer
- All these features mean slow wear and extreme durability over the long-term
- Anodized blue, with a permanent, organic environmentally friendly colorant

Thanks to its flexibility, this handlebar is also particularly popular in the world of factory riders.

This flexibility is ensured above all by its special Twinwall construction, making it two handlebars in one.

Other benefits of this design are:

- Maximum resistance to external damage (e.g. crash)
- Corrosion protection provided by additional blue hard-anodised surface finish of outer tube
- Special alloy and likewise hard-anodised surface finish of inner tube, which also protects it from damage by the handlebar fittings
- Rubber seals at the transition points between the two prevent penetration of water, dirt, cleaning agents or any other contaminants

Supplied with bar pads.
